

# Chocolate logos

**S**chokoLogo gives every company the opportunity to literally show their sweetest side: With a love for detail, this German company crafts logos out of the finest Belgian chocolate – as the ideal give-away, for instance, for trade shows, events and promotional activities – to ensure that a company lingers as a sweet memory.

The latest technologies are employed to process high resolution graphics without leaving a trace of air bubbles – even the smallest lines and the finest details are no problem. Small order quantities can be produced at a low cost as the production process gets by without the usual moulds. Schokologo requires print-ready digital B/W graphics in any format as a template. A printed template can also be sent in by post if the graphics are not available in a digital format. High-quality gold and silver boxes are available for packaging and can be stamped on request. The normal production and delivery time is 2 to 3 weeks; a surcharge applies to rush orders.
